

7.12 Noise and Vibration – Errata Sheet

	Incorrect Tier 1 Draft EIS Text/Table		Tier 1 Final EIS Text/Table (Volume 2) Page
	Page	Description	
1.	7.12-4	Kings County was mistakenly not shown for Alternative 2 in the Tier 1 Draft EIS. Table 7.12-3 has been updated.	7.12-4
2.	7.12-7	Kings County was mistakenly not shown for Alternative 2 in the Tier 1 Draft EIS. Table 7.12-4 has been updated.	7.12-7
3.	7.12-8 to 7.12-12	The estimated population within impact zones presented in the Tier 1 Draft EIS was miscalculated due to an error in census tract population count calculations. The discrepancy was identified for the Tier 1 Final EIS through comparison of the Preferred Alternative to the Action Alternatives. The estimated population within impact zones for the Action Alternatives has been updated with the correct calculations in Volume 2. Tables 7.12-5 through 7.12-9 have been updated. The estimated population was used to understand the order of magnitude and was not used in any other DEIS analysis. It did not influence the outcome of the DEIS.	7.12-8 to 7.12-12
4.	7.12-18 to 7.12-19	The estimated population within impact zones presented in the Tier 1 Draft EIS was miscalculated due to an error in census tract population count calculations. The discrepancy was identified for the Tier 1 Final EIS through comparison of the Preferred Alternative to the Action Alternatives. The estimated population within impact zones for the Action Alternatives has been updated with the correct calculations in Volume 2. The text in Sections 7.12.4.3 through 7.12.4.5 has been updated. The estimated population was used to understand the order of magnitude and was not used in any other DEIS analysis. It did not influence the outcome of the DEIS.	7.12-18 to 7.12-19
